

Wet Pattern Through The Weekend

- Slow-moving front will stall across the Ohio Valley tonight
- Disturbances travelling along that front will bring higher rain chances and possibly thunderstorms tonight through Sunday
- Rainfall totals by the end of the day Sunday could range from 2 -4" with locally higher amounts

Wet Pattern Through The Weekend

**Flood Watch in
effect from
Saturday through
Sunday morning**

Anticipate lowland as well as river flooding across southern Indiana and portions of north-central Kentucky.
